

Product Datasheet

GRP Anti-Slip Ramps

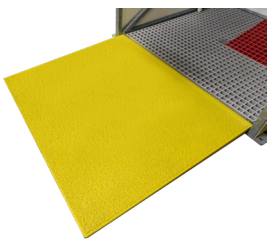

Designed to be attached to a Hughes emergency tank shower or cubicle safety shower, these GRP ramps prevent slips and trips on entering and enable easy access in the event of an emergency. Hi-visibility ramps also provide a demarcation zone to help stop the access area at the front of the safety shower becoming obstructed. With the anti-slip surface they assist in complying to EN and ANSI standards accessibility requirements.

- Hi-visibility yellow, heavy-duty GRP construction for improved strength and corrosion resistance, water resistance and UV stability.
- Easily retrofittable to existing Hughes emergency tank showers and cubicle safety showers to give improved access

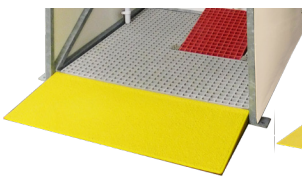

Specifications

MATERIALS OF CONSTRUCTION	
RAMP	GRP (Glass Reinforced Plastic)
DIMENSIONS & WEIGHT	
DIMENSIONS - STANDARD ORIENTATION (WxDxH)	1215mm X 465mm X 40mm for tank showers/cubicles with foot grating 1215mm X 1000mm X 40mm for tank showers/cubicles with foot grating 1215mm X 1000mm X 175mm for tank showers/cubicles with sump 900mm X 1000mm X 215mm for cubicle showers 1215mm x 1215mm GRP safe area demarcation zone anti-slip panel Other colours and sizes are available on request

1215mm X 1000mm X 40mm for tank showers/cubicles with foot grating

1215mm X 465mm X 40mm for tank showers/cubicles with foot grating

1215mm X 1000mm X 175mm for tank showers/cubicles with sump

1215mm x 1215mm GRP safe area demarcation zone anti-slip panel

900mm X 1000mm X 215mm for cubicle showers
