Removable insulated, or heated and insulated jackets for the Optiwash®

Retrofittable jackets designed for use with the Optiwash self-contained eye wash when located outdoors. The insulated jacket offers protection both from the the frost and solar radiation, while the heated jacket provides freeze protection down to -30F (-34C).

The Optiwash is ideal where a continuous supply of water is not available. The 10 US gallon, wall-mounted eye wash station delivers a controlled flow of a minimum 0.4 US gallons per minute of potable water for 15 minutes, meeting ANSI Z358.1-2014 requirements.
